The Star SM-T300i is a revolutionary ruggedized portable Bluetooth printer that is compatible with all operating systems (iOS, Android™, Windows®) including devices such as the Apple iPad®, iPhone® and iPod touch®. Compatibility with iOS is a result of Apple Inc.’s MFi certification of the SM-T300i portable printer.

The SM-T300i has easy “Drop-In & Print” paper loading, a reliable and quick print speed of 75mm per second, an intuitive LCD display and optional magnetic stripe reader. Dust protected and splash-proof resistant (IP54 Certified), the SM-T300i is rugged enough for outside field workers requiring handhelds to seamlessly print from a mobile device to a durable portable printer.

The SM-T300i also allows for restaurant servers and clerks working in demanding retail and hospitality environments to print standard three inch format receipts wherever they need to. Its rugged and splash proof design combined with standard three inch receipt printing and a long battery life make the SM-T300i a welcomed option.

In addition to its ability to pair with iOS, Android other popular mobile platforms, the SM-T300i can print receipts or data from a web browser-based application running on a mobile device wirelessly by configuring Star’s WebPRNT Browser App. Once configured, simply pair your mobile device to the SM-T300i, and print from WebPRNT Browser.
